

THE NEEDLE AND ITS WORK.—In the romance of 'Monte Beni' we find one of the best descriptions of this feminine accomplishment, needlework, that has ever been penned. We will give our readers the pleasure of its perusal, as many of them, probably, have never read Mr. Hawthorne's work. He says:—

'There is something extremely pleasant and even touching—at least, of very sweet, soft, and winning effect—in this peculiarity of needle-work, distinguishing women from men. Our own sex is incapable of any by-play, aside from the main business of life; but women—be they of what earthly rank they may, however gifted with interior genius, or endowed with awful beauty—have always some little handwork ready to fill the tiny gap of every vacant moment. A needle is familiar to the fingers of them all. A queen, no doubt, plies it on occasion; the woman-poet can use it as adroitly as her pen; the Woman's eye that has discovered a new star turns from its glory to send the polished little instrument gleaming along the hem of her kerchief, or to darn a casual fray in her dress. And they have greatly the advantage of us in this respect. The slender thread of silk or cotton keeps them united with the small, familiar, gentle interests of life, the continually operating influences of which do so much for the health of the character, and carry off what would otherwise be a dangerous accumulation of morbid sensibility. A vast deal of human sympathy runs along this electric line, stretching from the throes to the wicker-chair of the humane seamstress, and keeping high and low in a species of communion with their kindred beings. Methinks it is a token of healthy and gentle characteristics, when women of high thoughts and accomplishments love to sew, especially as they are never more at home with their own hearts than while so occupied.'

Truth-telling, in its highest sense, requires a well-balanced mind.

The hatreds and disgusts that there are behind friendship, relationship, service, and indeed proximity of all kinds, is one of the darkest spots upon earth.

ITS AIM WILL BE

pure—in literature, to leave no province unsupplied, so that while each number will contain articles of an abstract and permanent value, it will also be found that the healthy appetite of the artist for entertainment in the various forms of Narrative, Wit and Humor, will not go ungratified.

The publishers will try, also, that while native writers will receive the most cordial encouragement, and will be mainly relied on to fill the pages of the ATLANTIC, they will not hesitate to draw from the foreign sources, at their command, as occasion may require. In this way they hope to make their Periodical a medium wherever the English language is spoken or read.

Since the term of the Atlantic is intended to include the whole domain of literature, and to be a medium for the expression of all that is true and noble in the human mind, it will not be a medium for the expression of the American idea. PROSPECTS
OF THE
INDEPENDENT.

The Independent is published every week, in Osakaloosa, Jefferson County, Kansas, and is devoted to Literature, Arts and Sciences, LOCAL AND GENERAL NEWS,

Agriculture, Horticulture & Markets, and all features necessary to make it a suitable and desirable paper for

THE HOME CIRCLE.
The Merchant, Mechanic, and Farmer.

As its name indicates, it will be independent on all subjects, (not neutral), and in all respects up with the times—a 'live paper,' fearlessly following where Truth shall lead the way, careful of others' rights, firmly maintaining its own.

In conducting this enterprise, the proprietor brings to his aid the valuable knowledge acquired in Ten Years Experience as an Editor and Publisher, and knowing no such word as fail, he feels confident of success, and hopes to meet a kind and welcome reception among new acquaintances and future friends.

Until the undersigned arrives at his future home, to take charge of the office, the business and local interests of the paper will be conducted by JOHN W. DAY, Esq., Osakaloosa, Kansas, to whom applications should be made or letters addressed.

Scrofula, or King's Evil,
is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. While, ever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon the children."

In its commencement by depuration from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which poisons the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedial agents, has been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERYTHEMA and SKIN DISEASES, Strumous Eruptions, ROSACEA, or ERYTHELMA, PIMPLES, PUSTULES, BLOTCHES, HAIR AND SCALP DISEASES, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPPY, DYSPEPSIA, DEBRILITY, and, indeed, all COMPLEXIONS ARISING FROM Taint ON IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S
Ague Cure,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Malaria, Periodic Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in bilious derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Ague" expels the miasmatic poison of FEVER and AGUE from the system, and prevents the development of the disease, if taken on the first approach of its preliminary symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER and AGUE prevail, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittent Malaria is that it contains no Quinine or mineral, consequently it produces no quinine or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Rheumatism, Headache, Gout, Rheumatism, Pains, Toothache, Erysipelas, Catarrhs, Asthma, Consumption, Painful Affection of the Spleen, Hysteria, Pains in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodic. This "Ague" expels the poison from the blood, and consequently cures them all alike. It is a formidable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, it will be certain to prevent the system from accumulating in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
